This curriculum unit can be used in a variety of ways. Each chapter of the novel study focuses on three or four chapters of *Journey To The Centre of The Earth* and is comprised of five of the following activities:

1. Before You Read
2. Vocabulary Building
3. Comprehension Questions
4. Language Activities
5. Extension Activities

**Links with the Common Core Standards (U.S.)**

Many of the units activities are supported by the Common Core Standards. For instance the *Reading Standards for Literature, Grade 5*, makes reference to

a) determining the meaning of words and phrases. . . including figurative language;
b) explaining how a series of chapters fits together to provide the overall structure;
c) compare and contrast two characters;
d) determine how characters ... respond to challenges;
e) drawing inferences from the text;
f) determining a theme of a story . . . and many others.

- Students can work on the activities at their own pace.
- Every activity need not be completed by all students.
- A portfolio cover is included (Page Seven) as well as a Checklist (Page Six) to keep a record of completed work.

A principal expectation of the unit is that students will develop their skills in reading, writing, listening and oral communication, as well as in reasoning and critical thinking. Students will also be expected to provide clear answers to questions and well-constructed explanations. It is critical as well that students be able to relate events and the feelings of characters to their own lives and experiences and describe their own interpretation of a particular passage.

A strength of the unit is that students can work on the activities at their own pace. Select different activities from each section. Every activity need not be completed by all students.

Author Biography

Jules Verne

Jules Gabriel Verne - 8 February 1828 – 24 March 1905) was a French novelist, poet, and playwright.

Verne was born to bourgeois parents in the seaport of Nantes, where he was trained to follow in his father's footsteps as a lawyer, but quit the profession early in life to write for magazines and the stage. His collaboration with the publisher Pierre-Jules Hetzel led to the creation of the Voyages extraordinaires, a widely popular series of scrupulously researched adventure novels including Journey to The Center of The Earth (1864), Twenty Thousand Leagues Under The Sea (1870), and Around The World In Eighty Days (1873).

B. **PERSONIFICATION** is giving human qualities to something that is not human. The following is an example of personification taken from Chapter Two: "Faced with this difficulty, he was obviously going to lose his temper, and I was steeling myself for a violent scene when the little clock on the mantelpiece struck two."

Why do you think personification is a popular literary device used by many authors?

Create your own example of personification.
